Professional Summary

Detail-oriented and analytical Chemical Engineering graduate transitioning into Data Analytics with practical experience in data cleaning, visualization, statistical analysis, and business intelligence. Proficient in Excel, SQL, Power BI, and Python for transforming complex datasets into actionable insights. Strong problem-solving, research, and process optimization skills gained through engineering education and project work. Seeking to contribute analytical expertise and data-driven decision-making skills in a Data Analyst role.

Professional Experience

01/2026 – 06/2026
Lagos, Nigeria

Quantum Analytics
Graduate Intern / Data Analyst Intern

- Collected, cleaned, and analyzed operational data using Excel and SQL.
- Developed dashboards and reports to track key performance indicators (KPIs).
- Assisted in identifying trends and process inefficiencies, contributing to improved operational performance.
- Prepared data visualizations and presentations for management review.
- Collaborated with cross-functional teams to support data-driven decision-making.

2022 – 2023

Starline Nigeria Limited
Industrial Training (SIWES)

- Monitored production and operational processes while recording performance data.
- Assisted in preparing reports and analyzing process parameters.
- Maintained accurate documentation and supported process improvement initiatives.
- Worked with engineers to identify and resolve operational issues.

Projects

Data Analyst (Project Portfolio)

- Developed a suite of 15 data projects, including 10 Power BI dashboards and 5 Excel reports, focusing on actionable business intelligence.
- Automated data transformation

pipelines using Power Query to improve reporting speed and accuracy.

SQL Data Analysis Project

- Queried large datasets using SQL to generate business insights.
- Created reports on customer demographics, sales trends, and revenue performance.
- Improved data retrieval efficiency through optimized SOL queries.

Education

01/2020 – 11/2022
Enugu, Nigeria

National Diploma
Institute Of Management And Technology Enugu (IMT)

01/2023 – 10/2025
Enugu, Nigeria

Higher National Diploma
Institute Of Management And Technology Enugu (IMT)

Skills

Data Analysis Tools
Excel, Power BI, SQL,

Programming Languages
HTML and CSS

Data Visualization
Power BI Dashboards, Excel Charts, Dashboard Development

Databases
MySQL, PostgreSQL

Certificates

- Quantum Analytics Training - Data Analysis Training
- SQL for Data Analysis – Coursera/Udemy
- Microsoft Excel for Data Analysis – Udemy

Leadership And Activities

05/2020 – Present

Member, Society Of Petroleum Engineers (SPE)

10/2021 – Present
Enugu, Nigeria

Member, Nigerian Society of Engineers (NSE)

Enugu, Nigeria

Participated in data analytics boot camps, hackathons, Workshops
